## WORK EXPERIENCES

---

**Freelancer** – Software Engineer, Taipei, Taiwan

**Aug. 2023 – Oct. 2024**

- Developed a prediction market backend API featuring a matchmaking system and Ethereum smart contracts for fund deposit and withdrawal. Additionally, created a corresponding CMS for management.
- Built a LINE bot dating app MVP, reaching 50+ DAUs in 3 months, and worked on a web version with Django REST.

**Biznius.AI (formerly SeFo Finance)** – Freelance Software Engineer, Taipei, Taiwan

**Aug. 2022 – Jul. 2023**

- Implemented a leverage yield farming service on the Stacks blockchain, enabling users to optimize their yield rewards.
- Developed projects including the official, landing, and product webpages, a ChatGPT-integrated chrome extension.
- Participated in 3 web3 hackathons within a month. Led the engineering integration across two different blockchains.
- Collaborated with engineers and PM to deliver an MVP within a month. Defined product scope, selected the tech stack, guided product development and deployment, conducted tests, and facilitated initial user interviews.

**Poseidon Network** – Software Engineer, Taipei, Taiwan

**Jul. 2019 – Jun. 2022**

- Managed API servers for more than 15,000 active users and nearly 2,000 distributed edge devices.
- Leveraged Smart Contracts to build Ethereum-based tokens and integrated them with centralized servers.
- Constructed a site for uploading thousands of video files daily from geographically scattered locations.
- Collaborated with engineers, designer, and managers and used IPFS to build distributed storage systems.

## SKILLS

---

- Frontend: HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS
- Backend: Python, Node.js, Solidity, PHP, C/C++, PostgreSQL, MySQL, Redis
- Deployment: Docker, GitLab CI/CD, GitHub Actions, GCP, AWS, Heroku, Kubernetes
- Language: fluent in Chinese and English (TOEFL iBT MyBest Scores 103/120: R27, L29, S23, W24)

## EDUCATION

---

**National Taiwan University (NTU)** – Taipei, Taiwan

**Sep. 2024 – Jan. 2026**

Continuing Education Credit Program of Law

**National Taiwan University of Science and Technology (NTUST)** – Taipei, Taiwan

**Sep. 2018 – Jan. 2021**

Master of Information Management

- Graduation Thesis: A Land Registry System based on Ethereum Smart Contract in Taiwan
- Advisor: Dr. Yu-Qian Zhu, Co-Advisor: Dr. Hsiao-Hui Chen

**National Tsing Hua University (NTHU)** – Hsinchu, Taiwan

**Sep. 2014 – Jun. 2018**

B.S. in Electrical Engineering

- Graduation Project: C++ Based Simulator for the Eyeriss Convolutional Neural Networks Accelerator
- Project Advisor: Dr. Ren-Shou, Lu

## PORTFOLIO

---

**2024 Total Solar Eclipse Environment Monitor**

**Mar. 2024 – Apr. 2024**

<https://github.com/andyhsu10/2024-solar-eclipse-orange-monitor>

**NTHU Astronomy Club System**

**Oct. 2015 – Feb. 2019**
